

Valley Balancing

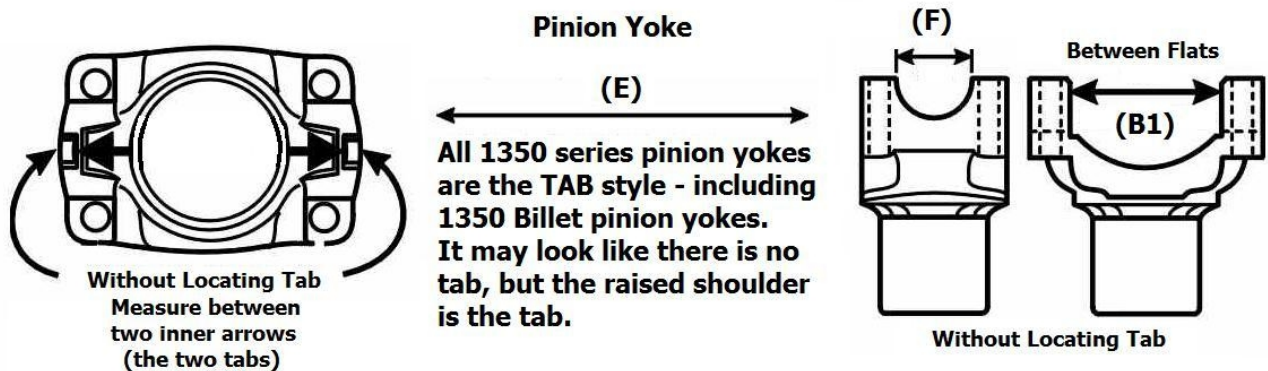

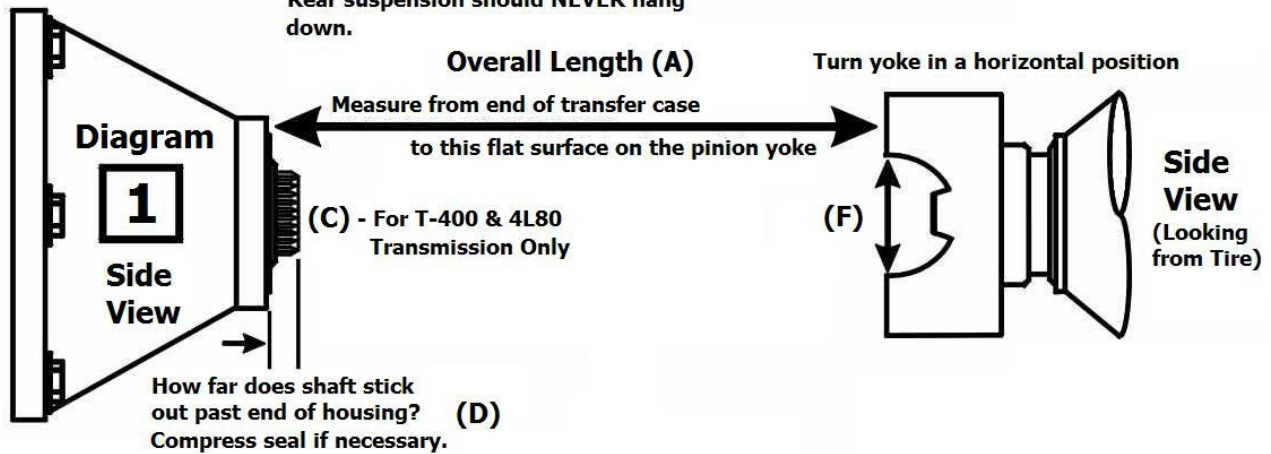

Diagram 1 209-538-8956

Most common diagram for street & race applications.

Use for Cars, 2 Wheel Drive Trucks,

4 Wheel Drive Trucks w/ transfer case slip yoke

IMPORTANT: Always measure vehicle with rear end supported on safety stands. The vehicle must be measured with the rear suspension as it would be if the completed vehicle was on the ground. Rear suspension should NEVER hang down.

Never use the hook on the end of a tape measure to measure B, B1 and F
